DETAILED ACTION

Status of Claims

1. Claims 1-28 are amended in view of applicant's preliminary amendment filed 16 May 2006. New claims 29-30 are added in view of applicant's preliminary amendment. Therefore, claims 1-30 are currently under examination.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20, drawn to a process.

Group II, claim(s) 21-24, drawn to a composition.

Group III, claim(s) 25-30, drawn to a product.

The invention listed as Groups I - III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

GB 697,294 teaches a process of patinating copper articles by applying an aqueous coating solution comprising copper ions(page 1 lines 10-16 and 79-85) and subjecting the treated copper article to a maturing process(page 2 lines 1-15), which reads on the claimed process as recited in claim 1.

3. **Applicant is advised that the reply to this requirement to be complete must include (i) an election of a invention to be examined** even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected invention.**

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
